General Comment

I've worked very hard my entire life and I am nearing retirement. Please leave our own personal investments into retirement alone. We are taxed enough. We see our hard-earned money go to programs, services and causes we have no control over, or worse, prefer not to be a part of. We've seen enough intrusion into our daily lives from the government. It is shameful and unfair to those who have been law abiding, taxpaying citizens. Every action has an equal and opposite reaction. Government should stay out of our retirement planning and future solvency.
